What Shall We Eat

To Keep Healthy and Strong? A healthy appetite and comp of diet, and a mixed diet of grains, fruits

in a highly concentrated form and is digested and assimilated more quickly than
vegetables or grains.

Dr. Julius Remuneon on this subject
says: Nervous persons, people run down
in health and of low vitality, should est
plenty of meat. If the digestion is too
feeble at first it may be easily strengthened by the regular use of Stuart's Dyspepsia Tablets after each meat. Two of
these excellent tablets taken after dinner
will digest several thousand grains of
meat, eggs, or other animal food in three
or four hours, while the multi diastiss
also contained in Stuart's Tablets cause
the perfect digestion of starchy foods,
like potatoes, bread, etc., and no matter
how weak the stomach may be, no trouble
will be experienced if a regular practice is
made of using Stuart's Dyspepsia Tablets,
because they supply the pepsin and diastuse so necessary to perfect digestion, and
any form of indigestion and stomach frouble except causer of the stomach will be
overcome by their daily use.

That large class of people who come under the head of nervous dyspeptics should
eat plenty of meat and ensure its complete digestion by the systematic use of
a safe, harmless digestive medicine like
Stuart's Dyspepsia Tablets, composed of
the natural digestive principles, peptones,
and disstass, which actually perform the
work of digestion and give the abused
stomach a chance to rest and to furnish
the body and brain with the necessary
nutriment. Cheap cathartic medicines
masquerading under the name of dyspepsia cures are useless for relief dreure of
indigestion, because they have absolutely
no effect upon the actual digestion of
food.

Dyspepsia in all its forms is simply a
failure of the stomach to direct food and

Davidson and Glazebrook Win First

Round in the Doubles. With better grounds than the moddy underfooting of Monday, play in the tourimprovement yesterday. The contest has now narrowed down to four players. One of these, after the sifting process plonship matches, and Franklin Geehe-gan, who is rated as a comer of the first-water. Metcalf will meet Bailinger in the semi-linals, while Giazebrook will serve to Geobegan. The winners of these matches will meet for a contest, best three in five sets.

Lavilson, from all indications, will re-tain the championship, and by so doing gain permanent possession of the trophy which he won in 1889 and again in 1990.

Scrofula THE OFFSPRING OF HEREDITARY BLOOD TAINT.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scroinia. There may be no external signs for along time, for the disease develops slowly who is tainted by either will see in the

a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stu and invigorating the whole system.

J. M. Seals, 113 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swellen and bursted. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage. Send for our free book and write our physicians about your case. We make no charge whatever for medical advice.
